RESEARCH EXPERIENCE & CURRENT PROJECTS

The Digital Commodification of Sex Offense Registry Data Study

Newark, NJ

Co-Investigator with Dr. Sarah Lageson

Digital Footprint Project - Phase II

Colorado Springs, CO

Lead Research Associate for Dr. Katherine Bright

August 2022 - present

In this role, I am co-creating phase two of a nationwide study. I now train research assistants on a co-built search protocol for a novel media database. I support primary data collection; conduct and train data cleaning work, perform and train quantitative and content analysis coding, write summary briefs for public audiences, and broadly train junior research assistants. Additionally, I maintain a collectively envisioned study website, collaboratively developed digital qualitative methods with the research team, and co-built models and practices in trauma-informed, emotionally engaged, and equity-based research.

Kermit Lind, MA, JD

Cleveland, OH

Community Development Policy Research Associate

June - Nov. 2017

I conducted research on Cleveland's Housing Court, strategic code enforcement and vacant/abandoned property. Additionally, I co-created material for the "Strategic Code Enforcement Management Academy" (SCEMA) and wrote reports on issues related to vacant housing and code compliance. I developed skills in the NEOCANDO NST data system to target strategic code compliance and vacant property work.

Hobart and William Smith Colleges, Department of Sociology

Geneva, NY

Research Assistant, Professor Ervin Kosta

May 2015 - August 2015
